PREFACE

THIS part of the *Catalog of Copyright Entries* contains an alphabetical list by title of unpublished music registered in the Copyright Office from January 1, 1950, through June 30, 1950. Renewal registrations of music made in this period are listed in Part 14B of the Catalog.

Bibliographic and Copyright Data.—Each registration is entered under its title. For an excerpt, the title of the work from which it comes is included. This is followed by a statement combining authorship and copyright information. Persons whose names precede the copyright symbol © are authors but not claimants; those whose names come after the copyright symbol are the claimants of the copyright, and are also authors when so designated by one of the abbreviations given below. When the application states that the claim is on a specific part of the work deposited (such as on new words, on arrangement of the music, etc.) this fact is stated immediately after the copyright symbol. The names of the claimants are followed by the date of receipt of one copy in the Copyright Office and the registration number. Any information contained in the copyright application which relates to the registration of an earlier version of the work is transcribed, as given in the application, after the clause: "Appl. states prev. reg."

The following are examples, with their proper interpretation:

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of a copy as required by section 12 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title-page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the Catalog part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for $20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

PREFACE

THIS part of the *Catalog of Copyright Entries* contains an alphabetical list by title of unpublished music registered in the Copyright Office from July 1, 1950, through December 31, 1950. Renewal registrations of music made in this period are listed in Part 14B of the Catalog.

Bibliographic and Copyright Data.—Each registration is entered under its title. For an excerpt, the title of the work from which it comes is included. This is followed by a statement combining authorship and copyright information. Persons whose names precede the copyright symbol © are authors but not claimants; those whose names come after the copyright symbol are the claimants of the copyright, and are also authors when so designated by one of the abbreviations given below. When the application states that the claim is on a specific part of the work deposited (such as on new words, on arrangement of the music, etc.) this fact is stated immediately after the copyright symbol. The names of the claimants are followed 1) by the date on which the last of all the items required to complete registration (i. e., each of the following: copy, application and fee) was received in the Copyright Office, and 2) by the registration number. Any information contained in the copyright application which relates to the registration of an earlier version of the work is transcribed, as given in the application, after the clause: "Appl. states prev. reg."

The following are examples, with their proper interpretation:

IN A MERCURY; w, m & © Orville Alexander Andrews 1Feb50 EU192318

To be read as:
IN A MERCURY; words and music by Orville Alexander Andrews and registered in his name as claimant under copyright registration number EU192318, February 1, 1950.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of a copy as required by section 12 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title-page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for $20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
